MOHAMMED FAROOK R

SOFTWARE DEVELOPER (MERN STACK)

PROFESSIONAL SUMMARY

Certified MERN Full Stack Developer with hands-on training from NURTURE INFOTECH (ISO Certified). Skilled in developing full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in front-end and back-end development with strong knowledge of RESTful APIs and MVC architecture. Experienced in Python, C, Java, and data tools like Pandas, NumPy, Power BI, and MySQL. Familiar with version control and deployment using Git, Netlify. Passionate about writing clean, scalable code and solving real-world problems in Agile/Scrum environments.

TECHNICAL SKILLS

Web Development

- Front-End: React.js, TypeScript, JavaScript, HTML 5, CSS 3, Bootstrap 5, jQuery
- Back-End: Node.js, Express.js, RESTful APIs, CRUD operations
- Database: MongoDB, MySQL

Programming Languages

· Python, C, Java

Data Analysis & Visualization

NumPy, Power BI, Advanced Excel

Tools & Platforms

Git workflow, VS Code, Deployment (Heroku, Netlify)

Soft Skills

 Agile, Responsive Design, Problem-solving, Team collaboration, Time management, Critical thinking

INTERNSHIP

• Completed a hands-on MERN Stack internship at NURTURE INFOTECH (ISO Certified), where I developed a full-featured web application with authentication, CRUD functionality, and seamless API integration.

PROJECT EXPERIENCE

- 1. E-commerce Web Application (MERN Stack)
- Built a fully functional shopping site with authentication, cart, and order features using MERN stack.
- Deployed responsive front-end with React.js and managed backend APIs and database using Node.js, Express.js, and MongoDB.
- 2. Expense Tracker App (HTML, CSS, JavaScript, MySQL)
 - Developed a responsive app to track and categorize expenses with user login and local storage.
 - Implemented MySQL database for persistent data management and CRUD operations.
- 3. Restaurant Website with Food Ordering System (MERN Stack)
 - Created a restaurant site with real-time ordering, admin dashboard, and dynamic menu features.
 - Used React for UI and Node.js/Express.js with MongoDB for backend and data handling.
